SB210

Vote by mail is immersed in fraud and zero accountability. There are no checks and balances is a huge departure from traditional election processes. Oregon is exhibit A when it comes to manipulation of data until those in control of the process get their desired outcome.

Oregon's system is so dark and flawed, even the simple confirmation of WHO our vote was attributed to is withheld from voters. The Oregon election system is the most corrupt in the country. Need proof? There will be zero effort to improve any facet of it.
