

Submitter: Aaron Button

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Our current vote by mail system allows me to research the issues and candidates on the ballot as I vote. This change would make me a less informed voter.

My father is disabled and unable to leave the house. This change would take his vote away.

This change benefits no one, and suppresses the voice of many. It is anti democratic. It makes voting harder when it should be easier.
