Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This is outrageous! Voting by mail is an efficient way to greatly increase the percentage of Oregonians voting. It helps older adults, families with young children, folks with disabilities, etc., to cast their vote. There is zero evidence that voting by mail increases fraudulent voting, which is for all practical purposes, nonexistent. This is a blatant power play to reduce states' rights by the current administration. Please vote no!!
