Senate Committee On Judiciary

Measure, Appointment or Topic:

SB243

These gun bills only deprive citizens of their 2nd Amendment right while allowing lawmakers to ignore tackling the root causes of mental illness and violence. More bills focusing on guns will not accomplish anything but force lawsuits. Trying to disarm law-abiding citizens by a government is a red flag, and that appears to be the intent from the continual cranking out of anti-gun bills that we keep seeing from those who seem to forget that they were elected to make sure our Constitution and Rights are protected.
