SB210

My family has been here since late 1700s .there is no reason in this day n age that people don't have ID .ever since mail in voting happened its been a mess .I can't even check of what I voted for has been counted properly. But with a paper ballot you can prove to me your not cheating.I strongly believe something isn't right with our voting system. Democrats have destroyed the state I call home .people I grew up with believe the same way.
