SB210

Oregon's vote by mail system is something we can be proud of. It got us through covid, it has helped to increase voter participation (isn't that what we want in a democracy?) and it has been in place for some time with little or no problems. Why change? Because we have a Republican army interested in suppressing our votes. They do it under the guise of efficiency, but we all know that this is actually because they are threatened by increasing voter participation. Vote no and stand up for democracy.

Respectfully, Joyce Berman
