SB243

I'm so confused by this bill!

The very people pushing this bill allow children to decide their gender and promote this as one of the leading states. Oregon promotes this past California per capita. So now the same people promote infringement of another group of people by driving the cost of firearms ownership. Infringement of people that can change their sex without parental consent as promoted by the leadership of this state, yet again infringing on their rights by changing the age to own a firearm. The only word I can think of to describe this is hypocrisy and self serving.

The last point revolves around 214 and promoting it as the will of the people? This Bill won by a very small margin and without allowing all the eastern Oregon votes.

The other point is the self admitted fraud within the motor voter voting system.

With that said how could leadership move forward in good conscience?

Once again history in this state with voters wishes only get implemented if leadership agrees and if not it will get forced through by other means like the voter ranking shot down or the driver lic that won.

Oregon leadership makes it very clear they run the state and we the people mean nothing.
