SB210

Voting by mail works so well and is so convenient, I can't imagine why anyone would change it, unless they want to make voting harder for people. It would make voting harder if you live in a rural area and have to drive a distance and take time off from work to do that.. Some people can't stand in line for hours. I've voted by mail for 25 years since I moved to OR and I love it. It feels completely secure. I put my ballot in the drop box by the library.
