

Submitter:	Lynnea Helgedalen
On Behalf Of:	Myself
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

As a resident of Oregon for over 40 years, I have had the privilege of Vote by Mail since it became available. Prior to this advantage it was a challenge to find time to study all the measures and candidates due to time constraints of working and family, to find the voter pamphlet at the Post Office or insufficient time to fit in reading it. Also, having one specific day to travel to the Library and stand in line to vote as our age and health advance is an added burden. Studies have shown that our Oregon Election by Mail is the safest and least corruptible way to vote. Our ballots are received in plenty of time for us to make informed choices and the security envelope insures our votes can't be tampered with till they are opened to count. The WHOLE COUNTRY should have our system. PLEASE don't change it.
