Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I totally support no mail in ballots there is too much fraud and cheating . Only American citizens should be able to vote and that means voter ID is and should be required ensure in-person voting on Election Day .This is essential to ensure our elections are fair and transparent and secure. Voting is all Americans responsibility and right, they should have confidence that their vote is counted correctly,this bill will help insure that. Thank you for passing this bill. Juanita Sabrowski
