Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I have lived in 6 states during since I became eligible to vote at age 18. I moved to Oregon in 1995 and was so grateful for mail in voting as it gave me time to read all the materials, discuss with friends and in my own time select candidates and measures. States that have mail in ballots have the highest voter turnout. It is convenient and efficient. Many people can't make it to the polls on Election Day due to work, children, weather... Please don't let this bill pass. It would be a shame to take this right away and succumb to voter suppression.
