

Submitter: Catherine Chase

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Please note that I, Catherine Chase, is in support of SB210.

I believe voting in person on the date of election is the only true way of an honest election. I believe any person wanting to have their vote count in an election, would need to show valid, government issued, identification on the date of election. I believe any authorized mail-in ballot should be returned no later than the day of election, if it is to be counted.

Lastly, I have not trusted the mail-in voting farce, since it's inception.

Thank you for your time, and consideration of my opinion.

Catherine Jean Chase, registered voter of The United States of America.
