SB210

Please don't let vote by mail be stopped in Oregon. I moved here in 2006 and have been able to vote in every election because of vote by mail. As a student with a nontraditional work schedule, it can be really difficult to get to an in person polling place. Furthermore vote by mail ensures that others like me as well as folks living with disabilities, folks without transportation, and homebound persons can vote. Please do not take this away. It will lead to less voices in our democracy
