

Submitter:	John Anthony
On Behalf Of:	Oregon's Democratic Process
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

I vehemently oppose any attempt to repeal or unwisely alter Oregon's vote-by-mail system. There has never been found to be any problems with this system. It seems to increase voter turnout, decreases fraud, and is wholly audit-able. Electronic voting machines are very easy to hack - high school students have figured it out - and then there's no paper trail to give any evidence of tampering.

I have personally found the system very friendly. It doesn't require me to alter my schedule so as to participate in the voting process and I feel 100% secure that my vote will be counted. I also love the voter pamphlet that accompanies my ballot. An informed voter is an effective voter.

DO NOT REPEAL VOTE BY MAIL. We will be watching.
