SB210

Hello,

As a native Oregonian I am embarrassed that our voices have been suppressed for so many years and no one seems to care. Voter ID, same day voting, paper ballots are just old fashioned common sense. We need ID to drive a car, we need ID to make a purchase, we need ID to board an airplane but yet to do our most important civic duty..VOTE we need nothing. In fact we are facing an abuse of voting rights by mail in ballots and illegal voters. It would be nice to once again trust our elections after all these years of blatant theft. Please do what's right and make our votes count again.
