

Submitter:

Rebecca Hobbs Lawrence

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a full time working mother, I'm opposed to going back to only in-person voting. Our mail in voting has been outstanding and makes voting assessable for many more people. That includes my mother who has a disability and it would be an incredible hardship to have her wait in lines to vote. As a working mom and a daughter of an elderly woman with a disability, it is our right to be able to vote without undo hardships put in place by our government.
