

SB210 is a ridiculous bill and nothing more than a form of voter suppression. I have voted in every single Oregon election because of the ease of our fabulous vote by mail system. I never had to take off of work, never had to worry about the weather, never had to worry about waiting in line for carrying out my right as an American to vote in our democratic process. If anything, the whole country should go to a vote by mail system. Watching the long lines of people suffering in the extreme weather systems to cast their ballot makes me appreciate the system we have in Oregon much more.

Instead of trying to take away rights and procedures from the people that have proven to work and benefit us all, how about coming up with some other items that will help and not harm our society. Our mail in voting system has proved time after time to be safe, secure, beneficial and efficient.

Vote NO on SB210!!!
