Measure, Appointment or Topic:

SB210

Mail in ballots are a better method of voting that serves the largest number of people. Disabled, elderly, informed. Allows people to make concise chooses by taking our time and allowing researching in the comfort of our abodes.

Mailin ballots allow for the tracking, counting and record keeping of elections. Not relying on vote centers where they can be closed or not staffed properly. Plus, lately in recent elections there have been intimidations, subtle, if not overt at election centers around the US.

Why break it if it isn't broken.

Keep it safe secure and accountable.
