

Submitter: Elizabeth Kinevey-Gump

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

As an Oregon resident who loves my community, I strongly oppose this harmful bill that would seriously impede many community members ability to vote. Our elections are effective and safe with vote by mail, we have a high rate of voter participation because of this and it does not make our elections more vulnerable to fraud— that is completely erroneous and dangerously false. I believe Oregonians deserve the right to participate in their own government without unnecessary roadblocks and limitations that unfairly affect some of our most vulnerable community members, like our elders. Do not pass this ridiculous bill.
