SB210

Hello -

I would like to register my lack of support for this measure. Vote by mail is an effective, convenient, and fair way for Oregon citizens to vote. Voting fraud is extremely rare. I can think of no reasons to change our current process except paranoia or the wish to make it more difficult to vote, especially for working people, disabled people, or people who would have trouble getting to a polling place. Please do not move this measure forward. Thank you!
