Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon has been a leader in helping Americans exercise their right to vote. Mail-in voting helps those citizens who have trouble getting to the polls on a work day due to age, health conditions, and/or family and work responsibilities. Forcing people to have to default to in-person voting is a step in the wrong direction and primarily serves those who want to silence their fellow Oregonians.
