Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I highly value the convenience and flexibility of Oregon's current combination of mail-in and drop-box voting. It compares very favorably with other voting systems I've participated in. I'm not aware of any compelling issues that would justify replacing it with a requirement for in-person voting. My experience is that in-person voting almost always leads to uneven barriers to voting, adding more difficulty for those with rigid work schedules, those who lack a vehicle, etc. Please maintain our current system of mail-in and drop-box voting to support all eligible Oregonians in exercising their right to vote.
