SB210

Support. Going back to in-person, in precinct, one day only, with your neighbors, getting ballot at your local community center or school in your precinct, showing ID, voting there, placing ballot there, being able to observe there at the end of the day the county of ballots with election results known that night for elections everywhere in the state is efficient, effective and economical.

We've already had training on hand counting since 2023 so we will quite ready for a change back to community. No thousands of ballots floating around. No strangers showing up as neighbors know neighbors.

Secret ballot. Your wife or husband can't pressure you or fill out your ballot for you. Mothers can't fill out their sons and daughters ballots for them.

Most of the state is tired of waiting weeks for election results. Multnomah County Elections in 2024 FIRST took the ballots from the drop boxes to a secret location that observers were told they could not go to observe.
