Vote yes on SB210!

The voters of Oregon have continued to bring forth questions and concerns about the integrity of Oregon elections. Oregon has no proven chain of custody for our ballots which leaves them completely vulnerable to theft, fraud and manipulation. Ballot watchers are not allowed to actually follow ballots or properly verify signatures. Personal accountability is achieved when voting is done in precincts with proper voter ID and face to face. Oregonians can still request mail-in-ballots for their special circumstances. How is it possible in a time of such convenience that people find it a hardship to vote in person?

Vote Yes On SB210
