My brother got two ballots mailed to him in 2020 . He was in the process of moving to Sutherland from Phoenix Oregon. Because he registered his car in Sutherland he got the new one and the old address. My son in law got 2 ballots two years in a row last year and the year before because he was moving from Central Point to Grants Pass. Both of these cases were because DMV registered them automatically! We need to go back to voter ID in person!
