

Submitter: Ivan Kitchen

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

David, The fact that you would propose this and not even make in person voting a multi-week window is insane and an attempt to strip democracy from the State of Oregon. Everyone supporting taking away our vote by mail system should be ashamed of themselves and I hope they understand their actions are un-American and against the people of Oregon. Pursuing this path would also open rural communities to potential disenfranchisement as they have fewer polling stations which can be easily targeted and shut down by malevolent actors and protestors.

We should be focus on making sure every voice is heard, not making it harder for small towns to vote, not making it harder for working people to vote by limiting it to one day of in person voting. David Smith of Port Orford, Oregon this attempt at taking away Oregonians freedom and right to self determination will not be forgotten.
