SB210

This is just one more attempt to control votes and it should be illegal to even submit proposed laws like this. Mail in ballots have served Oregon well and has meant greater voter turnout as a result. I STRONGLY vote now to stop accepting mail in votes. Last time I checked in America, citizens were allowed to vote whether they had cars or not, whether they were mobile or not. This law is designed to make it impossibly difficult for anyone to vote if they have trouble getting around or if they travel. Personally, I think this is just one more pathetic attempt to get people physically into a location so they can harass them further under the pretense of them getting rid of illegal aliens but it's not. It's much scarier and devious than what they are saying. STOP THIS NOW!
