SB210

I absolutely oppose this. Mail-in voting has been the standard in Oregon for a long time and nobody has ever been able to demonstrate that there is any kind of fraud significant enough to swing any election. It also allows for more intelligent voting decisions, because instead of voting in person at a booth with a line behind you, you can take your time, research and investigate, and make educated decisions as to who gets your vote.

This bill is designed to deny as many people as possible their vote and to control who is allowed to vote where. This bill was written in bad faith and the overall objective is voter suppression. The people responsible for introducing it know this and should be ashamed.

Vote no.
