

Submitter: Byron Rendar

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On  
Natural Resources

Measure, Appointment or Topic: HB5009

If the timber industry keeps their promises to support the Private Forest Accord, and conservation groups are in favor of it, I would ask that Oregon gives full funding to ODFW. I support HB5009.

I realize there are more demands on money than the State has. Given the wholesale assault on our environmental resources our private timberlands are more critical than ever to preserve clean water, forests, and the fish and animals that depend on them.

So I ask Co-Chairs Frederick and Levy to support HB 5009 to make sure that the Private Forest Accord is fully funded over the next two years.

Thank you.
