

Submitter: Tonya Buzzard

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

When Oregon began having Vote by mail, it was nice and convenient to be able to vote on my own schedule. Since then, the system has been wrought with problems including missing ballots, no verification that the ballot is actually being filled out by the person it's supposed to be, or that the voter is even allowed to be voting or is even alive.

We need to go back to voting in person, showing proper ID in order to vote, and no mailing of ballots unless requested by the voter in certain circumstances.

Passing this bill means securing our voting system in the state and decreasing the fraud that is and has been happening. Please Vote YES and require Oregon to go back to In Person voting
