

Submitter:

Jim Wells

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Whomever sponsored and/or is supporting this bill ought to be ashamed of themself -
- because they are either a cowering lap dog to our current President, a card-carrying
Project 2025 mentally disable, a conspiracy nut, or brain dead, or some combination
of the foregoing, perhaps even all ---

BECAUSE:

Our vote-by-mail system is the GOLD STANDARD for such a system, road tested for
almost 4 decades, the last over 3 of them statewide, clearly robustly de-bugged (still
monitored for that purpose), successful and secure,

AND, do not fail to remember that:

To switch back to in-person voting as the overwhelming majority method would incur
enormous extra-budgetary costs, at a time when the federal funding chaos being
inflicted by the highly-unqualified Muskian DOGErs in the name of (beyond Orwellian,
because it is laughable) "efficiency" is going to heavily impact the supply side of that
equation.

But you know ALL of this. Despite the litany of hypotheses I listed in my opening
sentence (to get your attention) I refuse to believe that most of our State legislators
are so ignorant as to not know all of this. If you have a shred of civic responsibility in
you, then, as an Oregonian for 40 years, having chosen and still choosing this
amazing state to be my forevermore home precisely because of all its exemplary
qualities, including its sane, friendly, neighborly Populism (and its outstanding natural
charms)

I beg you:

DON'T DO THIS.
