On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

In rural areas like where I live voting would be nearly impossible without mail-in ballots.

In many industries, like the service industry, healthcare, and necessary infrastructure, businesses simply cannot close their doors even for a day, making it impossible for many people to get to the poles on voting day. This leaves mail-in ballots as their only option.

Suppressing mail-in ballots IS VOTER SUPPRESSION no matter how you argue it.
