Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

We MUST retain mail-in voting in our state. This is a way to maximize voter turnout. It is established, it is efficient, and it is secure. Those that would have you believe differently are only interested in suppressing the vote or have bought into the conspiracy theories being distributed by Fox News and right wing zealots. I have lived in 5 states total now and have been a registered voter since I turned 18. I vote in EVERY election. I have voted by paper ballot, punch card, electronic ballot (all in-person), and now mail-in ballot. I have voted by absentee ballot, early voting, and election day-of voting. Mail-in voting is by far the most convenient, efficient, and secure. It also allows you to take your time and make sure you are well informed on an issue, unlike the rushed, tiring, exercise of in-person voting. Mail-in voting MUST STAY!!!!
