

Submitter:

Eleanor Carlson

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I have had the benefit of voting by mail for many years here in Oregon. I do not have to worry about transportation to an election booth. People who are housebound or cannot be near a polling place on a specific date can still exercise their right to vote with the very easy to use vote-by-mail system. Changing this is going backwards in the democratic goal of making the ability to vote easy for our citizens.

I urge all legislators to vote against SB20.
