

Submitter: Evan MacWilliams

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3542

This law will literally save lives! Sure it might irritate a few Tesla Karen's, but the data doesn't lie! Numerous studies show that legal lane filtering significantly reduces motorcycle fatalities. I am not at all in support of dangerous riding styles, and this law appears well written and clear in its guidelines. I often sit in traffic on my bike, wondering when I'll get rear ended, and if I'll die from it. Please legalize lane filtering so I can enjoy my hobby with the maximum amount of safety. For f***'s sake! I wear an airbag, a full face shoei helmet, Kevlar armored pants, and ankle protecting boots. Safety is my number one priority, and that is the singular reason that I support this bill!

ATGATT !

Solemnly,

Evan James MacWilliams
(1979 BMW R100)
