

Submitter: Shawn Ungren

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Being forced to vote in person be a huge imposition for someone my age 72. Not giving voters more time to send in their ballots and make sure they arrive on or before voting day doesn't give people enough time to make their decisions and mark their ballots. This administration is trying to control who votes who can vote on time and they're trying to eliminate women people of color and certain religions. This is totally an American. We should have a whole day off or a week off for voting.VOTE NO!!!
