

Submitter: Loretta Johnson

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I whole heartedly support this bill! We need to remove the ongoing battle about whether or not elections are safe and secure and timely and this bill is the thing we need to resolve this. People voted in person for many, many years without that process being impeded and it needs to be that way again. Voting is a privilege won for many of us by dedication and sacrifice, we need to honor that with a vote in person, counted on the day of election with very few exceptions.
