SB210

I have a significant issue making it impossible for me to stand in lines similar to those that other states force their voters to wait in on election day. Being able to vote by mail is one of the biggest ways in which I participate in our Democracy and I am exceedingly proud that we have it as an option. I have voted in person when my signature was questioned, but my auto immune disease would make it too difficult if we have long lines (lasting hours) stopping my ability to vote. My elderly parents, neighbors, and working friends would have difficulty voting if not for vote by mail. When I worked at USPS, I was PROUD to delivery and receive peoples' ballots.
