SB210

It has been an honor to live in Portland for the past four years and be able to get my ballot, look it over and talk to others and get some of the issues explained by friends and by reading. This takes time. I can fill it in a little each day in a thoughtful way. I want it delivered to me several weeks early so that I can do just that and do my citizenship justice and the folks who have put in hard work to run. They deserve it too. Our kitchen table balloting is the best ever. Leave it alone.
