Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

This bill, if it were to pass would set us back to the time when voting rights were curtailed by powerful people who knew the tricks of how to keep poor and disenfranchised citizens from casting their ballot simply by making it difficult for them to exercise their constitutional rights. Not only would this bill disenfranchise people, it would burden counties with additional costs to reopen polling places, buy voting machines and staff these locations. But of course, that is the whole point--to say oh, well we cannot afford to give you easy access and you'll just have to wait in long lines to vote (especially if you live in lower income neighborhoods). The author of this bill should be ashamed to call themselves a champion of U.S. values.

Thank you for the opportunity to share my perspective.
