SB210

Hi mail in ballots have never been proven to be unsecure or fraudulent. It is so convenient for our elders who have mobility issues and folks on vacation and our men and women who are deployed overseas. It allows them to vote,to have a voice. And that's democratic. This is just another voter suppression tactic and Oregonians don't want it. I love voting by mail. If it isn't broken it doesn't need to fix. Thank you.
