Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I moved to Oregon from Pennsylvania approximately 15 years ago. I vehemently oppose mandating in person voting, which is the system I grew up with in Pennsylvania. It's a system that makes voters give up on the process due to the long lines, lack of access, and general hassle. Imagine being a single mother having to stand in line with your impatient children for a hour or more just to exercise your right to vote. Oregon's mail in voting system has always been a point of appreciation from me. I applaud a state that cares about their citizens' time and allows them to carefully review the ballot and pamphlet versus feel rushed to make a quick decision in a voter booth because the line behind you is out the door. Please do not allow this bill to pass.
