

Submitter:

Betty Reynolds

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Research shows there are many advantages to voting by mail.

- It is more convenient for elderly, disabled, or working people who have difficulty making it to a physical polling place on election day.
- It increases voter turnout.
- It is more efficient and cost effective for election administrators.

The right to vote is fundamental to democracy. Eliminating voting by mail would mean disenfranchising voters, including some of our most vulnerable populations. It would reduce voter turnout, be less efficient, and cost more.

Please oppose SB 210. Thank you.
