Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Our current system of voting is fair, effective, and efficient. All citizens of Oregon, whether they are disabled or not, can't miss work on a workday, or have other barriers to waiting around on one specific day to vote can have their voices heard. Changing back to the archaic and barrier filled way of needing to find your voting area, waiting in line to vote, and missing work seems like a major step back for voting rights.
