

Submitter:	Jana Tindall
On Behalf Of:	SB 210
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

In my opinion, vote by mail is the most inclusive of all opportunities to exercise an individual's right as a citizen of this country. To repeal this fundamental right is to undermine the democratic process. Please vote against this measure.

My personal experience is watching my parents wait until my father returned from work, after a quick meal, my parents would stand, with me in tow, in line in order to cast their vote at the local polling location. After I was of age to vote, I also had to stand in line waiting to cast my vote. Think about how many people didn't make the time to do this versus how many now are able to review the issues and vote at their convenience. While I acknowledge there may be opportunity for influence over how someone votes, I seriously doubt it is significantly different than what occurred before mail in ballots. Please keep vote by mail available for all Oregonians.

Sincerely,
Jana Tindall
