

Submitter:

David Derlacki

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I have lived in Oregon for over fifty years and have proudly voted by mail in every election where it has been available. We have voted by mail for over 30 years in Oregon with no problems. SB210 is trying to fix a problem that does not exist. I find it useful and valuable, not to mention extremely convenient, to vote at the day and time of my choosing in my own home. I do not see any benefit to commuting to a polling place and standing in line. When I did last go to a polling place, getting enough volunteers to man the polling stations was a challenge.

I oppose SB210. We do not need to go backwards.
