Measure, Appointment or Topic:

SB210

Shame on whoever put this proposal up. Voting by mail is easier on the populace. As someone who works overnight, I would feel that repealing vote by mail is a clear attack on my ability to participate in my duty to vote. If you want a 24 hour world (like hospitals and ER rooms, two-day shipping, and consistent supply lines), stop presenting proposals that reduce the ability of shift workers to participate in their community.
