Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Over the last 8 years or so we have heard nothing but Russian interference of our elections.

We have now had an unprecedented amount of people cross our borders that do not have a legal right to vote.

It's time we switch back to in-person voting. Let's secure our elections. Regardless of political parties this should make sense to everyone that our elections are fair and secure. Only allowing people to vote as allowed by the law.

Proof of ID is necessary. The federal government is going to push this, might as well make it happen and save tax payer dollars for other priorities in the state.

Thank you.
