Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I have been an Oregon resident all my life. I have seen my state slowly decline for the past 60 years but no way as near the speed that we have ever since mail in ballots took place. I feel it's by no accident that we haven't had a republican conservative voice in the Governor ship since the late 80's. We need fare elections in our state again and the only way to achieve this is by getting away from mail in ballots. Voting needs to be in person again so to show proof that you are a legal voter with proper identification. We need transparency once again.
