Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This would put an undemocratic and undue burden on seniors, veterans and people with disabilities. I completely oppose this measure. My mom is in her seventies, grew up during the Cold War, loves the United States and completely depends on the option to do mail in voting, for example. The sudden concentration of efforts to oppose mail-in voting are rooted in motives that will ultimately harm voters and the election process.
